Hawaii State Department of Health,
Child and Adolescent Mental health division

State-wide Home-Based Mental Health Services

Purpose of this request for information:

- To obtain community input in preparation for developing an RFP.

 - Other: To obtain provider input into the division's updated Performance Standards for various Home-Based services.
-

The Department of Health, Child and Adolescent Mental Health Division (CAMHD) is requesting current and past contractors, interested state agency partners, community-based organizations, non-profit provider agencies and interested community members to provide information and feedback that will assist CAMHD as it develops a new version of the Child and Adolescent Mental Health Performance Standards (CAMHPS) and a Request for Proposals (RFP) to procure a range of intensive home-based mental health services for youth for the period July 1, 2018 through June 30, 2024. The current CAMHD array of home-based services includes Intensive In-Home Therapy, Intensive Independent Living Skills, Comprehensive Behavior Intervention, Functional Family Therapy, and Multisystemic Therapy.

Specifically, we would like to identify gaps in our services including subgroups of youth and families who may not be well-served currently, and ideas about innovative service models providers would be interested in utilizing. Also, we would like to identify any areas in the current Performance Standards that could be changed to make the services more efficient or effective.

Background information: The current CAMPHS is available on the CAMHD website: <http://health.hawaii.gov/camhd/files/2013/07/Orange-Book.pdf>. We will conduct a general meeting in-person and via videoconference and teleconference to provide background information, answer questions and hear your comments.
